LACK OF LABOR FELT

High Wages Fail to Secure Enough Hands for Mills.

ELECTION MAKES WEEK DULL

Previous Week's, but Less Interest in Cotton Goods-Iron and Steel Industry Shows Unexampled Prosperity-Broadening Looked For.

New York, Nov. 9 .- Dun & Co.'s weekly review of trade to-morrow will say:

Business experienced the customary interruption during election week, but a more permanent retarding influence was the inadequate supply of freight cars and Albany." labor. Many industries are severely handicapped by traffic delays, raw materials and fuel coming to the factories in a most unsatisfactory manner.

In other cases there is idle machinery because hands cannot be secured, despite the high wages offered. This difficulty threatens to reduce the lumber cut ma-

Several strikes are threatened and one railway system alone has advanced monthly.

Retail trade is well maintained by lower been shot several times. The coroner was temperature in some sections of the notified. Hicks has not been captured. country, and the full employment of labor at all points, while wholesale business in holiday goods is very heavy. Manufacturing returns show unequaled prosperity in the iron and steel industry, footwear factories are busy on shipping lines and textile mills are well employed, although the decline in raw materials has temporarily checked purchases in primary markets for cotton goods. Tardy deliveries still cause complaint in the iron and steel industry, unprecedented production by the finishing mills falling behind the requirements of consumers.

Cotton Goods Listless. Less interest is shown in the primary market for cotton goods, although there is a fair volume of business in progress. The persistent reaction in raw material has had influence at last, buyers now believing that concessions must follow a period of indifference on their part. Hides NEWSPAPER CIRCULATION AND PREMIUM work. A few first-class men to go South immediare in good demand at steady prices, tanners seeking supplies of current salting to carry over the coming season of poor quality. Transactions are heavy, because both packers and purchasers seem satisfied with current quotations, whereas efforts to secure concessions might check the movement. Interrupted movement of grain to primary markets, and the consequent restriction of foreign business, as well as activity of Northwestern flour mills, checked the unward tendency of quotations and caused some reaction.

Dispatches to Dun's review from branch offices of R. G. Dun & Co. indicate a heavy movement of merchandise and active plans for further broadening of trade. Commercial failures this week in the United Staes as reported are 172, against 180 last week, 204 the preceding week, and 183 the corresponding week last year. Bradstreet's Report.

In its weekly review of trade Bradstreet's to-morrow will say:

Greater confidence resulting from the elections, marked advances in wages of employes of railroads, greatly improved cating heavy consumption, good business on spring account, a continued scarcity of labor, and record-breaking outputs of iron and steel, are pre-eminent features of the week.

Weather conditions, except in portions of the Northwest, have been quite favorof the Northwest, have been quite favorable; retail trade has been active, reorder business from jobbers has been larger than ordinary, and wholesalers report than ordinary, and wholesalers report eavy orders for spring delivery. As for a long time past, however, complaints of slow deliveries on orders are almost universal-cotton, dry goods, lumber, coal, and iron and steel dealers all complain-

Car congestion explains some of this and with present prices of grain account for slow movement from the farm, but scarcity of labor is reported largely responsible for the backward deliveries of

The rapid movement of cotton, due to the late advance, has complicated the Southern transportationu problem, as has also the lack of labor to pick the crop, which has been favored with good weather at a critical period. Industry presents as active an appear

ance as ever, and labor is getting high returns, an example of this being afforded by advances of 10 per cent in wages by a st.

number of leading railways.

All in all, the situation is one of im mense activity and of eager demand, despite the fact that prices of staples gendex numbers are at the highest point for at least twenty years.

WANT STOCK TAX REMOVED.

Brokers Will Petition the New York Legislature to Repeal Law.

New York, Nov. 9.-There is in progress of formation an organization which will endeavor to secure from the next legislature the amendment or repeal of the stock transaction tax. Many brokers have become interested in the movement, but brokers will only constitute a portion of the membership. Among the remainder will be found bankers, traders, and others affected by the tax. E. H. Fallows, a Trade Conditions in General Up to lawyer of 170 Broadway, and a former member of the assembly, is taking an active part in the movement.

There has never been concerted action," said Mr. Fallows to-day, "to present the merits of the case, and especially the injustice of the amendment of last winter, to the legislature. We believe that a large part of the vote against the Republican candidates for minor State offices was cast on the conviction that the law is unfair, and that the equitable the law is unfair.
